## Digital pH sensor Orbisint CPS11D

# Memosens glass electrode for standard applications

## **Benefits:**

- Robust electrode with long poison diffusion path, requires low maintenance due to large, dirt-repellent PTFE ring diaphragm
- Suitable for harsh applications: Process glass for highly alkaline media and pressure-stable up to 16 bar (232 psi)
- Optional salt ring for low conductivity applications such as boiler feed water and water for injection
- Maximum process safety through non-contact, inductive signal transmission
- Enables predictive maintenance due to storage of sensor and processspecific data
- Reduced operating costs thanks to minimized process downtime and extended sensor lifetime

## Specs at a glance

- Measurement range pH 0 to 14
- Process temperature 0 to 135 °C (32 to 275 °F)
- Process pressure 1 to 17 bar (15 to 246 psi)

## Field of application:

## Orbisint CPS11D is not the latest Memosens generation and will be phased out soon. To get information on the new Memosens CPS11E sensor with extended functionality, click here.

Orbisint CPS11D is the digital all-rounder for process and environmental technology. It measures reliably even in highly alkaline media or hazardous areas. Designed for low maintenance and a long operating life, the electrode offers you best value for money.

## Features and specifications

More information and current pricing: www.endress.com/CPS11D

#### Measuring principle

Potentiometric

#### Application

Long-term monitoring, processes with little change Water and wastewater treatment

#### Characteristic

Analog, digital pH electrodes for standard applications in process and environmental technology Dirt-repellent PTFE diaphragm, built-in temperature sensor

#### Measurement range

pH 0 to 14

#### Measuring principle

Gel compact electrode with PTFE ring-diaphragm

#### Design

All shaft lengths with temperature sensor Advanced gel technology Digital electrode with Memosens technology

#### Material

Glass and PTFE

#### Dimension

Diameter: 12 mm (0.47 inch) Shaft length: 120, 225 and 360 mm (4.72, 8.86 and 14.17 inch)

#### Process temperature

0 to 135 °C (32 to 275 °F)

#### **Process pressure**

1 to 17 bar (15 to 246 psi)

## Temperature sensor

NTC 30k

#### Ex certification

ATEX, FM, CSA, NEPSI

### Connection

Inductive, digital connection head with Memosens technology

Ingres protection IP68

Additional certifications Also available as SIL version
